

RIPE 64

Member Services Update

Andrew de la Haye

Operational statistics

- Increasing ticket-load Customer Services and Registration Services

CS tickets

Division of time in 2012

RS tickets

Registry quality initiatives (1)

- Key objective is to keep the RIPE Registry complete, correct and current
- Audits performed
 - 2010: ± 400
 - 2011: ± 450
 - Increase number of audits and coordination services
- Implemented RIPE NCC Report Form
 - Improving the user experience with an easy to find, easy to use webform for reporting
 - Abnormalities within Internet number resource registrations

Registry quality initiatives (2)

- Registering Legacy Resources

Legacy holders and prefixes RIPE NCC Service Region		Registered since Feb 2012	
± 900 prefixes	130 LIRs	± 520 prefixes	33 LIRs
± 3400 prefixes	2370 non-LIRs	11 prefixes	5 non-LIRs

- Feedback from legacy holders
 - Positive feedback on the initiative
 - RIPE NCC is being pro-actively approached
 - Need for clarity on charging
 - Current RIPE policy compliance ‘showstopper’ for some

Registry quality initiatives (3)

- 2007-01 Contractual relationship for PI address holders
 - 15,000 new independent resources assigned under contract
 - 33,000 resources pre 2007-01 needed to be contacted
 - 16,000 resources pre 2007-01 currently covered by contracts
 - 1,000 resources voluntarily returned
- Resource Transfer Listing Service
 - Facilitate resource transfers for members in line with Policy
 - Allocation not smaller than minimum allocation size
 - Cannot contain customer assignment
 - Based on need
 - Received allocation cannot be re-transferred within 24 months

Focus on member requirements

- Enhanced coordination services
 - 128.0.0.0/16: configured as martian on Junos routers
 - De-bogonising 128.0.0.0/16 and outreach
 - 121 Operators contacted by phone and email
 - Positive response. Email preferred medium
 - Analysis and results will be published on RIPE Labs
- Calling LIRs during resource requests
 - If after 3 emails no resource approval
- Calling new LIRs during first allocation request
 - Introduce policy, processes and Registration Services' role

IP Analyser

- LIR Portal module: lirportal.ripe.net/ipanalyser/
- Offers complete overview of all resources you hold
- Basic feature set now, expanded incrementally:
 - IPv4 Provider Aggregated, IPv6 Allocated by RIR
 - Allocations, Assignments, INFRA-AW, Free space
- Roadmap for 2012:
 - All Address space types, show overlaps/invalids
 - Export data, create API for local use

Customer Satisfaction Measurement

- Customer Services tickets
 - Survey started in January (47 responses)
 - Average of 87% customers satisfied
 - Potential to roll out across all customer and member facing departments
- Live Chat sessions
 - Measured from August 2011 (225 sessions)
 - Average of 5 stars awarded
 - Plans to increase availability (currently 2 hours per day)

Training Services Department

- IPv6, LIR and RR Training courses
 - More technical and more hands-on
- On-line learning and movies
 - Webinars
 - RIPE Atlas movie
 - 5 new Database videos (May)
 - RPKI (June)
 - 5 IPv6 videos, transitioning techniques (September)

RIPE NCC Webinars

- Available now
 - Introduction to the RIPE Database
 - RIPE Database - Advanced topics
 - Resource Certification (RPKI)
- Available later this year
 - IPv6 in the Database
 - IPv6 - how to achieve 4 stars RIPEness
 - New-LIR Webinar
