The Clean IT project

- What is 'terrorist use of the internet'?

- *•Internet as a target*
- *•Internet as weapon*
- *•Internet as a resource*

- How does the project work?

- *•Public-private*
- *•Open dialogue*
- *•Trusted setting*

- What challenges we face?

IFreedom?
Good and bad practices
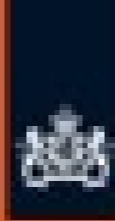

1. Threat of online terrorism (4/4)

Propaganda

Radicalisation

1. Social media
(YouTube, Facebook, blogging sites)

2. Secondary forums
(ideological sites)

3. Core forums
for jihadist elite
(deep web)

The project and the challenges

- Business + Goverment + NGO = workshops
- Private sector leads
- Trusted community and open dialogue
- General principles
- Best practices

- legal vs illegal
- Balance security-privacy
- Not restrict iFreedom
- Effectiveness
- Implementation

Join Discussion..?

- Flagging tools
- Abuse buttons
- Awareness
- Notice and Take Down

The Clean IT Project

Fighting the illegal use of internet
